

Janison Academy.

Release Notes

FY23Q1S4

Build number: 2.1.2314.1

Bug Fixes

Title

CLS-13114 | 60023

Problem

If a user was in a timezone ahead of a session of a Learning Event then the warning "This session has finished. Unless you actually attended this session, please do not register for it. Do you wish to continue with registration?" would incorrectly show

Fix

Session end time is now correctly converted to UTC for storage and converted back to users local time for display.
