

Janison.

Janison Academy

Release notes

FY24Q3S6

Build number 2.1.2436.1

Improvements

Improved logging on Other Learning reminders

Internal #: CLS-13705

Problem

Intermittent time-outs have been noticed on some Learning Reminders being sent out.

Fix

Increased logging has been added to Reminder Emails to aid in diagnosing expensive operations and any other causes of hard-to-replicate errors. To improve end user experience during this diagnosis period the operation timeout has also been increased temporarily.
